LARGEST IN THE CITY.

Business!
The columns of a newspaper represent a cash value. No publisher can afford to give advertising "nothing" free any more than a merchant can lose over his counter ten gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its only gains are the stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

The Continued Call
upon The Leader for free notices have become so burdensome that we are forced to publish the following terms:

For Notices of Suppliers,
resolutions, favors, or other public entertainments where a fee is charged, and for ordinary notices, resolutions of respect, etc., The Leader will charge five cents a line, and hereafter this will be the invariable rule. This, however,

Does Not Include
notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.
Misunderstandings are unpleasant. The rate for Business Local in The Leader is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line local inserted in the paper. "I tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—21 times—the bill is \$10.50. When he finds it out there is a "kick" and a controversy. The notice probably by an icy feeling. Now, to obviate this trouble, no "tidy" notice will be accepted hereafter. Let's have a definite agreement at the outset and the termination will be pleasant all around.

ALL matter for publication must be handed in before 9 o'clock in the morning of each day.

FAREWELL TO CONGRESS.

The record will show that the aggregate appropriation will exceed a billion dollars for the two sessions of this Congress—Washington District 2.

"Good-bye,"

We sigh, But still without regret.

Thou left, Be it.

We may be happy yet, You're quite— That's it.

We're glad that some are lost. Because— Here's a pause—

A billion you have cost. You've balked, And talked;

But little have you said. We've found Mere sound

Your long debates have led. But now We vow

We know you cut a dash, For we Can see

You've cost a billion cash. We find How blind

We have been in the past. Adieu, You know.

We're glad you're through at last. We fear It's clear

From what you've done before. If you Went't through

You'd cost a billion more. The price Is three

As much as you are worth: Else, then, Few men

Would almost own the earth. "Too high!"

We cry, And urge when we're allowed

You're not Good wot, A billion-dollar crowd.

Some good You should

Have right to claim you've done. Then, too, The true,

You've had a lot of fun. This claim To fame

We will not now deny. But still Your bill

Is very much too high. —Chicago Post.

WHITE RIBBON BAND.

THE LADIES OF MT. OLIVET HAVE FORMED ONE TO FIGHT AGAINST HAVING A SALOON.

The ladies of Mt. Olivet have banded themselves together to work against the whisky traffic and the opening of a saloon in that town.

Saturday night they had a most interesting meeting at the Courthouse in that place.

Their program consisted of recitations, readings, music, addresses, prayers and a temperance paper.

They implored the men to protect them and help them keep their terrible temptation—an open saloon—from their hands, sons and brothers.

Everything that was said and done showed how this deadly poison would wreck a man's life and make a brute of him.

We don't see how the men could turn against the piteous appeals of the women and vote for an open saloon.

Keep the saloon out as long as you possibly can.

GOT SATAN ON THE GO.

A REVIVAL AT FLEMINGSBURG NOW GOING ON, AND ONE JUST CLOSED AT FEARIS.

The Flemingsburg Gazette says that a committee composed of one lady from each church in that town waited on the business men of that town with a request that all stores be closed after 7:30 o'clock in the evening, so that everyone might have an opportunity of attending the union revival meeting which is in progress at the Presbyterian Church.

The request, we are pleased to say, is being complied with, and at the hour mentioned nearly all the stores in that town are closed.

There were four additions at the service Monday night, and the interest is increasing at every meeting.

As soon as that meeting closes the Christian Church at that place will begin a similar service.

THE PEARIS REVIVAL.

A three weeks religious meeting at Pearis, conducted by the Pastor, Rev. N. G. Grizzle, who is also Pastor of Sedden's Chapel, M. E. Church, of the Sixth Ward of this city, closed at the M. E. Church Friday evening, the 8th inst., at that place.

The meeting was the best and most successful one held there since the Rev. E. C. Pollard organized the church.

There were about twelve old members renewed their membership and about twenty seven joined the church, a few from other churches requested membership and several conversions are reported.

The church will be thoroughly organized by the Pastor the third Sunday in this month, and after that a full report can be had.

Notwithstanding the opposition some of the people of Pearis have against churches, the one there will show its faith by its work from now on if they can only secure such preachers as the Pastor, Rev. N. G. Grizzle, they will soon have all in some church.

There has been much done to build up and to reopen the church there, but there are a great many thousands to be done yet.

Newport's Chief of Police reports only \$57 collected on fines during the month of February.

Graydon Council has passed an ordinance against hogs running at large in the streets of that town.

An ordinance providing for the election of city officers in November has been passed by the Lexington Council, and now the question will go to the courts for a decision.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1904 William Wilson was dined and welcomed in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

One of the economical spasms that attacked the late Democratic Congress was the topping off \$14,200,000 from the Pension Appropriation Bill. Oh, how these Democrats love the old soldier—likeable!

The fool Democrats had to adopt Tom Rix's plan for counting a quorum, after swearing they wouldn't; and now they are obliged to admit that Mr. Rix was right when he declared that this is a Billion Dollar country.

It wasn't necessary for that Washington correspondent to assure us that JOHN G. CARLISLE hadn't drank a drop of liquor since he became Secretary of the Treasury. Any one who knows JOHN knows that that is just what has been the matter with him.

The Republican party has certain well-defined policies with which the Louisville Commercial is in hearty sympathy.

It is in favor of tariff policy which will stimulate American industries and employ American labor at wages that will enable workmen to live in a way fitting them and their children to play the part of capable and useful American citizens.

It is in favor of National supremacy in all National concerns and for state rights in all matters that properly concern the administration of the states.

It is in favor of preserving the National credit and of giving the people a sound, stable and honest currency, in which a dollar means a coin equal to the best dollar in the world, and which a workman can save with the assurance that it will be worth as much when he has to spend it as when he put it away.

The Republican party also we understand its purposes, is in favor of fair elections, of fair dealing with all interests, whether individual or corporate; in favor of material development and of the progress which leads to the better living of all classes, and of the reform which gives people good government at the lowest cost.

In regard to all these matters The Commercial is in sympathy with the Republican party, and will help it in as long as it works for them. The Commercial regards parties as only useful in carrying out certain principles. It will support the party that advocates the principles that it thinks best for the country, and it will not support any body or any party that favors measures or policies that it deems injurious to the best interests of the people.

THAT RUSH.

The Outcome of the Indiana Legislative Riot.

The Governor's Private Secretary Badly Hurt in the Melee.

The bill over which the Scrag occurred in March. No effort has been made to have any the arrested.

INDIANAPOLIS, Ind., March 13.—Private Secretary Myron D. King, who was the chief figure in the legislative "rush" Monday night, is now in the hospital, suffering from a severe head injury.

He received a laceration and puncture on the center of his forehead in a football game and one rib over the heart was cracked and the diaphragm was torn from the bone. He suffered intensely all day, except when relieved by opiates. The chances, however, are that he will recover.

Representative Adams, of Parker county, whose giant form loomed up in the struggle so conspicuously, both to friend and foe, did not show any damage to his body Tuesday morning. His watch was lost or stolen in the melee, and the republican members made up a purse of \$50 to buy him another. It was presented to him Tuesday afternoon at the Denison house, in the presence of the doctors.

Many of the members saw that they thought the governor intended to veto the highly prized and hard-fought-for fee and salary bill, and that their resistance was to prevent this. This was a much more justifiable cause for resistance than the miserable custodian bill, which had only a mess of petty spoils about a dozen places in it, to contend for. If the governor had given the house time to consider the veto of the bill, it would have been passed over his head in an orderly way and would not have amounted to a farthing, because it was so bunglingly drawn as to be unworkable from a constitutional point of view.

No effort has been made to have any body arrested, but the governor says that some effort of the kind ought to be made. The bill over which the rush occurred has not been found, and it is probable the republicans gained nothing.

Both sides have been scored for engaging in the football style of politics. Gov. Matthews Tuesday tried to have a meeting of directors for each of the prisons commissioned by Secretary of State Owen, but the latter refused, the new law vesting the appointments in a board of state officials, of which the governor is one. The governor selected Henry A. Root, a republican, of Michigan City, and J. P. Jarrrell, a republican, of Muncie, to succeed the two democrats whose terms expire this month. The other two old members were reappointed.

The appointments of the board of state officers will begin proceedings at Michigan City as soon as they are appointed. The board met and organized, but did not select the members who are to be the directors.

Plate Glass Thrown.
CHICAGO, March 13.—What is believed to be the evolution of the Pitts-Burg Plate Glass Co. into a trust controlling all the plate glass companies in the country began Tuesday in the purchase of the Diamond Plate Glass Co., the greatest rival of the eastern concern. Though declining to give the figures, the transaction of Col. Conger said the investment in the Diamond Co. represented \$10,000. With the capture of the Diamond Co. the others are expected to follow.

State Senator Arrested.
DENVER, Col., March 13.—State Senator John R. Gordon, of Pueblo, was arrested and brought before United States Commissioner Capron, who fixed his bail at \$1,000. It is charged that Gordon was implicated with C. B. Sawyer, recently arrested in Pueblo, in a conspiracy to defraud the government in an effort to change the site of the prospective federal building at Pueblo. The senator's friends there is no foundation for the arrest.

Texas Boys' Terrible Crimes.
GILMER, TEX., March 13.—The house of Jennina Webb, a Negroess, living near here, was burned Monday night, and in going over the ruins Tuesday the charred remains of her two children, aged 11 and 13, were found. Walter Sinclair, aged 17, colored, was arrested on suspicion, and at the examining trial it was developed that he had assaulted the oldest child, a girl, then murdered both and burned the house to cover up his crime.

Street Car Lines Bought.

Work on the improvements will begin within three weeks, to be completed within seven months. The estimated cost of the change is \$150,000.

Thousands for Henry George.
LONDON, March 13.—The will of Mr. S. M. Burroughs, who died at Monte Carlo, bequeathed \$1,000 to Henry George. Mr. Burroughs was born in Medina, N. Y., and was senior partner in the firm of Burroughs & Wells, wholesale pharmaceuticals in London.

FOR PEACE.

Terms Finally Arranged to End the Japan-China War.

WASHINGTON, March 13.—As a result of the negotiations between Minister Dun in Japan, and Minister Denby in China, the terms of the peace about to be concluded between China and Japan are now known with little short of exactness. An understood in high official circles, they are as follows:

First—The treaty between Japan and China has ceased to exist by reason of the war, but on the renewal of peace the new treaty will grant Japan extra territorial jurisdiction over China, but the latter country will surrender the extra territorial jurisdiction she formerly held in Japan.

Second—There will be no extension of Japanese territory in the mainland of Asia, but the Island of Formosa, a Chinese possession lying off the coast, will be permanently ceded to Japan.

Third—The Japanese will by treaty be granted the right to continue the occupation of Port Arthur and Wei-Hai-Wei, the two great naval stations leading to the Gulf of Pechili, for a term of years.

Fourth—The claims of China that Korea is a dependency of hers shall be forever relinquished and Korea shall henceforth be independent.

Fifth—The cash indemnity to be paid by China will not exceed \$250,000,000 in gold.

The Monk!

By MATTHEW O. LEWIS,

(MONK LEWIS)

Mr. Lewis was a member of the British Parliament, and his book became so popular in England a hundred years ago that it gained for him the title of "Monk Lewis."

It is a fine piece of classic composition, and after being out of print for many years it has been republished from the original text.

It is far superior to "Moby Dick" and books of that character.

RIOTING.

Blood Flows on the Levee at New Orleans.

Armed Mobs Shoot Down the Negro Place Takers.

Some Half a Dozen Colored Men Dead and a Number Wounded.—The Negroes First Shot by the Whites.

NEW ORLEANS, March 13.—At 7 o'clock Tuesday morning the Negro laborers of the Crowsline line and also of the Harrison line were reporting for work on the levee, at the head of St. Peter street, they were fired upon by a crowd of about 50 white men.

Several of the Negroes were killed and many of them seriously wounded. There is great excitement here. The attack was so sudden and unexpected that the Negroes made no resistance and the untrained fled from the scene, leaving their dead and wounded companions lying on the levee.

The names of the killed and injured have not yet been learned, and identification will be difficult for the reason that many of the Negroes who have taken the strikers' places have been imported from other cities recently.

A number of smaller riots took place along the shipping district early Tuesday morning. A gang of strikers attacked a number of Negroes who had congregated in the vicinity of the French market, and several of the blacks were badly wounded.

At the head of First street the mob chased a gang of Negroes and fired a volley of bullets after the fleeing fugitives. One Negro was instantly killed and several others were wounded.

All sorts of rumors are afloat about the number of killed and injured. Up to noon it was believed the list of killed would not exceed six Negroes, and the wounded would not go above 15 or 18.

The lower portion of the city, where the railroad yards and steamboat docks are located, is covered with a dense fog and it is feared that the whites will take advantage of this and continue their assaults upon the men who are taking their places as seamen.

A committee of citizens Tuesday morning waited upon Mayor Fitzpatrick and asked him to call out every available policeman to keep order. The mayor is investigating the trouble, but it is feared that the trouble has gone beyond the control of the police, and the state militia will be called out.

All morning the white strikers were patrolling the levee in large gangs and threatening all kinds of injury to the imported Negro.

Among those known to be injured are James A. Kane, (white), purser of the steamship Engineer; Louis Brock (white), a longshoreman; William Williams (colored), a seaman; Frank Wighall (colored), a driver; and L. Melior (colored), a scale hand.

Purser Kane, who was standing on the wharf when the riot began, was shot in the head three times and in the arm once. Melior and Brock were shot in the head. Both men are believed to be dangerously injured.

At 7 o'clock this morning as twelve or fifteen Negroes were working on the levee at the head of Phillips street, about three miles above the place where the first riot occurred, a crowd of white men suddenly appeared on the wharf from an adjacent street and opened fire on them. All of the Negroes succeeded in making their escape except one man, who was shot, and who was killed.

Another crowd of white men quickly ran away, escaping before the police could reach the spot.

Mayor Fitzpatrick is now patrolling the levee front with a squad of police.

Gov. Foster has been telegraphed to and it is reported the militia have been ordered to keep themselves in readiness. At this writing members of the mob are drinking. The police fear more trouble. Acting Chief of Police John Johnson is on duty. The entire front is in a turmoil and no riot may be expected at any moment.

The bodies of the four killed at the Jackson square are at the board precinct station, where the bodies of the others are at the Sixth precinct police station.

The report that a white longshoreman had been killed is now denied.

At 10 o'clock it is now positively known that four Negroes are dead. Of these three are unknown. The fourth is the Carib. At the hospital there are eight wounded. Of this number two are dying. They are Harry Brown, shot five times in the head and chest; Mallard, shot through the forehead with a Winchester rifle.

Later reports are to the effect that at least two Negroes were shot and jumped into the river. They are still reported missing.

Prof. Wiggler Predictions.

OTTAWA, March 13.—Prof. Stone Wiggler, speaking of the eclipse of the moon, said it was not remarkable except for the fact that it passed so near the celestial equator. This, he added, would produce violent magnetic disturbances, on both the earth and the moon, and a very decided fall of temperature on them, and all probability the event will be followed by earthquake shocks on both hemispheres.

The moon, he said, passed squarely over the earth's axis, and the light of a dark brown color, and distinctly visible during the eclipse. If it (the moon) had no atmosphere to distribute the solar rays, and the light in space, it would have been black as ink.

Pardoned by Gov. Foster.

NEW ORLEANS, March 13.—Thomas J. Ford, who was sentenced to the penitentiary for 20 years on account of his connection with the killing of "Capt." Murphy in this city, about 11 years ago, has been pardoned by Gov. Foster. The board of pardons having recommended it.

TO RETALIATE.

If Our Products Are Not Admitted at French Ports, the Retaliatory Policy Will Be Given Him.

WASHINGTON, March 13.—There seems to be a feeling among the treasury officials that the attitude of several of the foreign countries in regard to our tariff laws is such as to create some stir before very long. The threatened discrimination of France has brought forth an order to Ambassador Froment.

Froment, however, unless our products are admitted at French ports without discrimination, that the president will be obliged to use the power given him to retaliate. There has been some lively correspondence between the state department and our foreign representatives in this regard, and the policy has been decided that the Wilson bill, or rather the Sugar tariff bill was greatly in favor of the foreign exporter, and that discrimination against French goods, at the time came with ill grace. The state department has been trying to diplomatically adjust the seeming tariff trouble between the two countries. It is well known that the president would hesitate a long time in retaliating, because to do so would be to declare war, which would mean that the United States would be at war with France.

It is just this complication, which some officials here look forward to with uneasiness, for they fear there yet may be a tariff war of considerable moment between the two countries before the whole matter will be adjusted.

SERIOUS CHARGES.

Made Against the Chicago Police by the Salvation Army.

CHICAGO, March 13.—Salvation army officers and their attorneys have filed charges with the city court against Lieut. Fife and his command of the East Chicago Avenue station.

The Salvationists say policemen of the riot district, Tuesday night, under orders from Lieut. Fife, have been molesting and interfering with the army's open air meetings on the North side.

The army officers say that Tuesday evening, while open air services were being held on Huron street, near Clark, policemen, under the same orders, stopped, threatened the soldiers with arrest.

The complaint informed the superintendent of police that the riot police had been sent to Lieut. Fife by the salaried and brothel keepers along the street demanding that the salaried police be removed.

Supt. Brennan assured the officers that such conduct toward the army would not be tolerated.

BY BALLOON.

Engineer Andre Declares He Will Make an Attempt.

This Summer to Reach the North Pole From Spitzbergen.

His Balloon Will Carry Three Passengers, Air Tight and Capable of Being Used in the Worst Weather.

NEW YORK, March 13.—At a recent meeting of the Academy of Science in Stockholm, Sweden, the great Swedish engineer and aeronaut, Andre, who has been remarkably successful in steering a balloon out of the direction of the wind, read a paper in which he declared that he would make an attempt to reach the north pole in a balloon from Spitzbergen.

He declared the pole could be reached in ten hours. His balloon will carry three passengers, be air tight, and capable of being sustained in the air thirty days, and have a system of sails and ropes which will keep the balloon in check. With the wind at a velocity reached during a recent experiment, Andre said the balloon would reach the pole in ten hours.

He believes he can pass over the pole and land somewhere near Behring strait. It is proposed to make an attempt during the coming summer, when the ice will be melted.

Andre will have the advantage of the daylight.

CINCINNATI, March 13.—The body of David Aldridge of Rome, N. Y., was recovered from the wreck of the ill-fated steamer Longfellow at Frankfort, Mo., Tuesday morning.

The wreckers, who had been hired by the relatives and friends of the lost passenger, were ordered to begin work on the wreckage in the forward cabin Tuesday morning, and it was here that Mr. Aldridge's body was found.

They were looking for the bodies they had been searching. The bodies they were looking for were those of W. J. Aull (passenger), Dayton, O.; Gus Scheuval (barkeeper), Chicago, Ill.; and Thomas Miller (colored porter), Cincinnati.

Baking Powder

ABSOLUTELY PURE

Precious few are the tobacco beds that have been burnt by our farmers. Farm work of all kinds is far behind, and we will all rejoice to see the last of this ground-hog weather.

Rev. Morgan filled his regular appointment at Old Stone Church Sunday morning. He did not preach at night in consequence of having to preach the funeral of Mrs. Creekbaum of Dover.

DREAMED OF THE DISASTER

Died the Wife of the Second Engineer of the Longfellow.

In the wake of all tragedies of general magnitude follow queer stories. Second Engineer Wilson De Hart of the fated steamer Longfellow lives with his wife and children at 136 West Eighth street, Covington, and was among the saved.

His wife dreamed Wednesday night that the boat was lost with all on board, and it preyed so on her mind all day Thursday that she tried to persuade her husband not to make the trip.

After bidding him goodbye on the boat she told the chief engineer, Dan Haller, of her dream and with tears in her eyes begged that he endeavor to influence her husband to remain home, as she knew the boat would be lost.

On learning of the accident she ran almost all the way to Broomley in her endeavor to keep pace with the floating wreck and was almost wild with grief before the news of her husband's rescue reached her, and she then refused to be convinced until he was brought to her.

De Hart was an engineer on the Golden Rule when that boat was burned.

The family have the sympathy of the community in the loss of their little one.

IT'S INJURIOUS TO STOP SUDDENLY, and don't be imposed upon by buying a remedy that requires you to do so. It is nothing more than a substitute. In the sudden stoppage of tobacco you must have a stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine or other opiates, leaves a far worse habit and contract to ask your druggist about BACON CURE.

It is a pure vegetable preparation. You do not have to stop using tobacco with BACON CURE. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew of smoke. An irrefutable written guarantee to absolutely cure the tobacco habit in all its forms or money refunded. Price \$1 per box, or 3 boxes (30 days treatment and guaranteed cure) \$2.50. For sale by all druggists, or will be sent by mail upon receipt of price. SEND 2 TWO-CENT STAMPS FOR SAMPLE BOX. Booklets and proofs free.

OFFICE OF THE PRINTER PRESS COMPANY. C. W. HOBBS, SUPERVISOR, ST. PAUL, MINN., Sept. 7th, 1904. I have been a tobacco addict for many years, and during the past year have smoked about twenty cigars daily every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for good and for all. I tried the so-called "Keweenaw Cure," "No-Tobacco" and various other remedies, but without success, until I accidentally obtained your "Bacon Cure," and today I consider myself completely cured. I am in perfect health, and the longing for tobacco has completely disappeared. I can fully recommend it. Yours very truly, J. H. COHEN.
